

H2O WATERPROOF HEADSET

Description

The heavy-duty waterproof headset performance microphone is designed for the active professional. The SP-H2O is characterized by its waterproof, noise-cancelling element, designed for use in dance and fitness instruction, water aerobics, theme park and amusement games, or anywhere there is a need for a waterproof headset microphones. The SP-H2O also features a detachable cable and a comfortable, adjustable fit. The SP-H2O Headband and gooseneck are sealed for protection against water, dust and perspiration. The gooseneck boom permits precise placement under the lips and stays in place during physical activity. The SP-H2O headset microphone is built to withstand the rugged use associated with performance applications. The SP-H2O performance headset microphone is compatible with most wireless systems
